Grain Yearbook published in April

FRONT COVER

Chris and Peter Radford of Radford Harvesting, checking if they're 'right to go'. The Radfords operate six Claas Lexion 760 with Terra Trac combine harvesters. They are about to start operations on a large-scale cropping operation at Rowena in northern

NSW. Their business harvests more than 40,000 hectares of cereals, sorghum, rice, corn, poppies and pyrethrum in Queensland, NSW, Victoria and Tasmania each year.

Contents

Editorial	4
Delayed planting pays off	6
Early sowing is key to reaping rewards from deep wheat roots	13
Soil constraints and management options put to the test	14

Focus Sections

Southern Australia Focus

Covering cropping systems of Southern NSW, Victoria, South Australia, Western Australia and Tasmania

Long-running study assesses modern farming systems	i
New biocontrol options for wheat root diseases	iv
Canola researchers aim to beat the heat	v
A new faba bean suits Middle Eastern markets	vi
Getting smarter with data on pastures	vii
Challenge to make energy efficient wheat	viii
Soils project part of new research	viii

Northern Focus

Covering Northern NSW and Queensland

Sunflower leaves are the plant's growth powerhouse	i
Next Gen sunnies	ii
Growers weigh up spray decision	iii
Herbicide tolerant summer cropping choices	iv
Senior agronomist to support cropping production in the north	v
Champion water use efficiency	vi
Operating large mixed flow pumps at high efficiency levels	vii
