Grain Yearbook published in April

FRONT COVER

A bird’s eye view of canola harvest underway at ‘Bedford Harbour’ Jerdacuttup, about 170 km west of Esperance. Elisa Parisi from Italy,

David Large (farm manager) and Annie Jemmeson wave the headers in. For many growers on the WA South Coast, 2018 was the first season they have seen hybrid canola varieties out-yield open-pollinated types. See page 44.

Focus Sections

Southern Australia Focus

Covering cropping systems of Southern NSW, Victoria, South Australia, Western Australia and Tasmania

| | |
|--|------------|
| Cropping difficult soils plumbs new depths | i |
| Topsoil inclusion works best in controlled traffic farming systems | iii |

AHRI insight...

| | |
|--|-------------|
| Are pre-ems and crop competition the wine and cheese for canola? | v |
| Fast lupin harvest can cut grain losses and optimise quality | vii |
| There’s a new sheriff in town | viii |

Northern Focus

Covering Northern NSW and Queensland

| | |
|---|-----------|
| Research into new wheat genes for dry conditions | i |
| Long fallow disorder risk after months of dry weather | ii |
| Keep FTR control front of mind | vi |
