Grain Yearbook published in April

FRONT COVER

COVER CROPS AND SOIL HEALTH

Alex Nixon with sons, Archie (left) and Eddie (right) in their wheat crop at ‘Jay-Dee’ on the Western Darling Downs, Qld. See article page 29.

March New wheat genetics for deep sowing
April Cold tolerance in chickpeas research
Early wheat flowering and frost risk

Contents

Editorial	4
Harvesting wild genes gives crops renewed resistance to disease	6
New genetics to improve wheat establishment with deep sowing	8
Where does beer come from?	13
The physiology and genetics of cold temperatures in chickpeas	14
Classic Tractor Tales...	
Three of the best!	19
Ask An Expert...	
Does diversity help with weed control and herbicide resistance?	23
Marketing...	
Strong demand continues amid production uncertainty...	25
Grains industry to be a big winner in new Indonesia partnership	27
Cover crops are unearthing the secrets to improved soil health	29
One tiny step for a nematode, one big step for agriculture in space	30
Can we refine winter crop planting dates further?	31
Barley growers advised to get winter crop ready	36
Fighting fungicide resistance in a key barley disease	37
Are our weed seed ecology studies done correctly?	38
Crop variety performance data for more informed sowing programs	40
News & New Products	41
District Reports	44

Focus Sections

Southern Australia Focus

Covering cropping systems of Southern NSW, Victoria, South Australia, Western Australia and Tasmania

Taking the local nutrient yardstick to national variety trials **i**

AHRI insight...

 Wild radish resistant to atrazine, super-sensitive to bromoxynil **iii**

Are grain crop burn-offs a cereal offence against the wine industry? **vii**

Diverse crop rotation gives better long-term yield and protein **viii**

Northern Focus

Covering Northern NSW and Queensland

Leaf stage and controlling glyphosate-resistant tall fleabane **i**

Dry weather doesn’t deter crown rot management **vi**

Quantifying nutrient removal this harvest **vii**
